

Of property owners would like to renovate but do not have the necessary funds

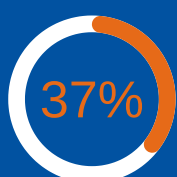

Property owners would appreciate to have some **INCENTIVES** in place in order to proceed to sustainable renovation.

Subsidies and grants

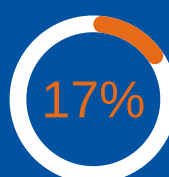

Tax reductions

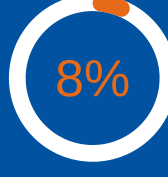

Professional/technical advice

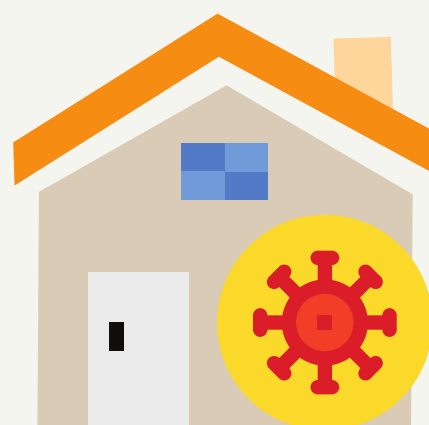

One-Stop-Shops

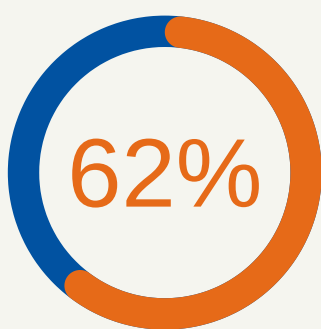

Loans

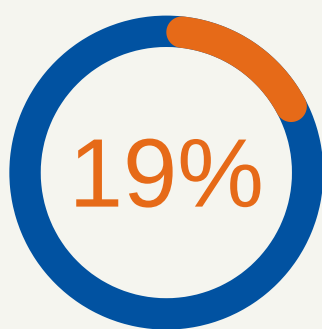

COVID-19 IMPACT

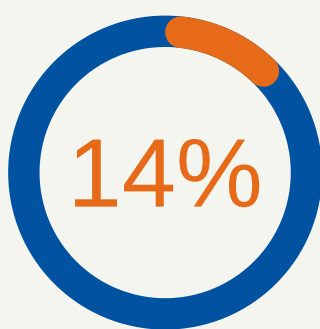

The pandemic seems to have affected the **RENOVATION PLANS** for the **28%** of the respondents. From them:

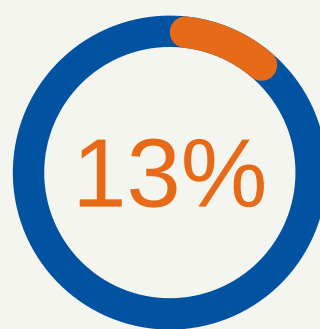

Postponed their plans

Downsized their plans

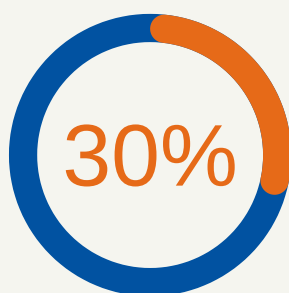

Abandoned the idea

Reduced their budget

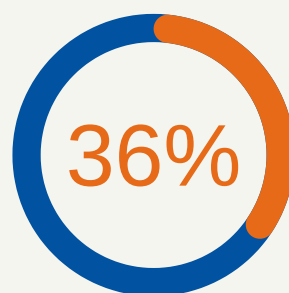

The **BUDGET** that property owners are willing to invest in renovation is one of the main aspects that the pandemic has negatively affected.

BEFORE COVID-19 HIT

Planned to spend more than 20.000€

AFTER COVID-19 HIT

Planned to spend less than 5.000€

Concerning Covid-19 crisis, although it does not appear to be the most significant burden nor a catalyst of sustainable renovation, it had an impact on renovation plans and opinions.
