

SCALING UP RENOVATIONS: TOOLS AND STRATEGIES FOR FINLAND

 ANNANKATU 24, 3RD FLOOR (HELSINKI)
ROOM LALLUKKA

 13:30 - 16:00

As Finland sets its sights on scaling up building renovations, this interactive workshop aims at bringing together key actors from across the construction and real estate value chain to explore how upcoming EU and national policies can be translated into real action on the ground. With insights from UIPI and hands-on discussion around key legislation, the event offers a unique opportunity to unpack strategies that can help accelerate renovation efforts in Finland.

From industrialised renovation approaches to one-stop shops and digital support tools like the building renovation passport, we'll examine what's feasible, what's needed, and how Finland can lead the way.
